

Jethro Browell

Curriculum Vitae

Address: School of Mathematics and Statistics
University Place
Glasgow, G12 8TA

Email: jethro.browell@glasgow.ac.uk
Web: www.jethrobrowell.com
Web: [UofG Staff Profile](#)

Positions

University of Glasgow, UK

2024– *Professor of Statistics and Data Analytics, School of Mathematics and Statistics*

2021–2024 *Senior Lecturer, School of Mathematics and Statistics*

- Research in data science and statistical methodology for probabilistic forecasting and associated decision-making problems, and applications in the energy sector
- Principal and co-investigator roles on research and knowledge exchange projects, grant writing, managing and developing research staff
- Teaching and supervision at BSc, MSc and PhD level

National Grid Electricity System Operator

2023-2024 *Lead Data Scientist, Energy Forecasting (Secondment)*

- Knowledge transfer, innovation, and research on operational energy forecasting
- Two-year part-time (25% FTE) secondment

University of Strathclyde, Glasgow, UK

2020–2021 *Lecturer & Chancellor's Fellow/Senior Lecturer (2021)*
Dept. Electronic and Electrical Engineering

2015–2020 *Research Associate/Fellow (2017), Dept. Electronic and Electrical Engineering*

- EPSRC Innovation Fellowship 2018–2022
- Founding leader of Energy Forecasting Group
- EPSRC Doctoral Prize 2015

Education

2016–2017 *PGCert: Academic Practice, University of Strathclyde*

Courses in Teaching and Learning, Knowledge Exchange and Researcher Development which comprise a PGCert accredited by the Higher Education Academy.

2011–2015 *PhD, University of Strathclyde, Glasgow, UK*

Title: *“Spatio-temporal Prediction of Wind Fields”*

Supervisors: Dr Stephan Weiss and Prof David Infield

Structure: ‘1+3’ EPSRC Centre for Doctoral Training

Three months as a visiting researcher at the Technical University of Denmark

2007–2011 *MPhys (Hons), University of St Andrews, UK*

Mathematics and Theoretical Physics (2:1)

Master’s Research Project: *“Magnetic Fields Containing Two Null Points and a Separator”*

Cedric Thorpe Davie Award for contribution to University musical life

- In Book**
- Contributions to Parts 2 and 3 by **J. Browell**, Eds. C. Möhrlen, J. W. Zack, G. Giebel, *IEA Wind Recommended Practice for the Implementation of Renewable Energy Forecasting Solutions*, Academic Press, 270 pages, ISBN: 0443186812, 2022
 - R. Bessa, **J. Dowell**, P. Pinson, “Renewable Energy Forecasting,” in *Smart Grid Handbook*, edited by C-C. Liu, S. McArthur and S-J. Lee, Chichester, UK: John Wiley & Sons Ltd, ISBN: [978-1-118-75548-8](https://doi.org/10.1002/9781118755488), 1900 pages, Chapter: 639–659, 2016.
- Editorial**
- Editor: Sustainable Energy, Grids and Networks (2023–present)*
Editorial duties for this leading journal responsible for handling submissions related to energy forecasting and analytics.
- Associate Editor: IEEE Access (2022–)*
Forecasting subject specialist for Power & Energy section of IEEE’s flagship open-access journal.
- Member of Advisory Board: F1000 Research Energy Gateway (2021–)*
Advisory role to F1000 Research as they establish the ‘Energy Gateway’ section of their open-access, open-peer-review publishing offering.
- Guest Editor: IEEE Open Access Journal of Power and Energy (2021–2022)*
Guest editor of a special issue of OAJPE “COVID-19 Impact on Electrical Grid Operation: Analysis and Mitigation”, associated with my role organising a COVID-19 electricity demand forecasting competition.
- Member of the Editorial Board: Sustainable Energy, Grids and Networks (2020–2023)*
Editorial duties for this leading journal responsible for reviewing submissions related to energy forecasting.
- Member of the Editorial Board: Renewable and Sustainable Energy Reviews (2019–present)*
Editorial duties for this leading journal (top decile, impact factor 10.6) responsible for reviewing wind energy and forecasting related submissions.
- Guest Editor: Renewable and Sustainable Energy Reviews (2018–2019)*
Guest editor of a special issue of RSER in marine and ocean energy dedicated to the work and memory of Professor Ian Bryden.
- Reviews**
- Regular reviews for:*
Journal of Applied Statistics, IEEE Access, International Journal of Forecasting, Renewable & Sustainable Energy Reviews, Meteorological Applications (RMetS), IEEE Trans. Power Systems, IEEE Trans. Smart Grid, IEEE Trans. Sustainable Energy, IEEE Trans. Industrial Informatics, IEEE Power Engineering Letters, Wind Energy, Technological Forecasting and Social Change, Power Systems Computation Conference, Energies (MDPI), European Safety and Reliability Conference, IET Renewable Power Generation, WindEurope Conferences.
- Recognised as outstanding reviewer for IEEE Trans. Sustainable Energy and the International Journal of Forecasting in 2022–23.*

Funding and Awards

NB: Projects labelled TIC-* refer to those funded by the University of Strathclyde’s Technology and Innovation Centre’s industry funded Low Carbon Power and Energy Programme.

- Funding**
- BBSRC PACE Horticulture (Co-I, 2024–26, £300k), “Using Demand Flexing to Transform Indoor Farms into Renewable Energy Assets”
 - Industry: TNEI Services & National Gas Transmission (PI, 2023–24, £13k of £150k project), “Short Term Probabilistic Gas Forecasting”
 - NGESO Knowledge Exchange (Part-time secondment 2023–24, £93k), “Lead Data Scientist, Energy Forecasting”
 - EPSRC Impact Accelerator Account & Natwest Group (Co-I, 2024–26, £107k), “Modelling and predicting household emissions”
 - OFGEM Strategic Innovation Framework (PI, 2022–2027, Discovery Phase £7k, Alpha Phase £41k of £500k project, Beta phase £450k of £5m project), “Predict4Resilience”

- ETP Energy Industry Doctorate with Shell (PI, 2022–2026, £69k), “*Multi-variate forecasting for wind power integration in electricity markets*”
- TNEI & National Grid ESO (PI, 2020–2021, 12 months, £60k of £400k project), “*Control REACT*”
- TIC-LCPE (PI, 2020–2021, 12 month, £111k), “*Modelling Wind Power for Probabilistic Transmission System Planning*”
- TIC-LCPE (Data-02) and EPSRC Supergen Energy Networks Flexfund (PI, 2019–2020, 13 month, £125k), “*Energy Forecasting for Market-led Multi-vector Networks (EnFORMM)*”
- TIC-Networks-06 (Co-I, 2019–2020, 9 month, £150k), “*Operating a Zero Carbon GB Power System in 2025: Frequency and Fault Current*”
- EPSRC Responsive Mode (Co-I, 2019–2021, 24 months, £700k), “*Analytical Middleware for Informed Distribution Networks (AMIDiNe)*”
- TIC-Wind-09 (Co-I, 2019, 1 month, £16k), “*Met-ocean Access Sensor Location Study*”
- TIC-Hydro-04 (PI, 2019, 8 months, £80k), “*Sub-seasonal-to-seasonal Hydro Resource Forecasting*”
- EPSRC Impact Accelerator Account (Co-I, 2019, 6 months, £12k), “*OpenLV: Low Voltage Demand Forecasting and Phase Balancing*”
- EPSRC-UKRI Innovation Fellowship (PI & Fellow, 2018–2022, £310k), “*System-wide Probabilistic Energy Forecasting.*”
- EPSRC Supergen Wind Flexible Funding Special Projects Call (Co-I, 2018, £30k), “*Automated Video Analysis for Accurate Wave Height Measurements in Offshore Wind Farms.*”
- TIC-Hydro-01 (PI, 2017–2018, 6 months, £40k), “*Short to Medium Term Hydro Resource Forecasting*”
- Energy Technology Partnership (PI, 2017–2018, 5 months, £20k), “*Dynamic Load Grid Modelling*”
- The DataLab Industrial PhD Studentship, with Natural Power (PI, 2017–2021, £60k), “*Predictive Analytics for Short-term Wind and Solar Power Forecasting*”
- Knowledge Transfer Partnership, Romax Insight (Co-I, 2017–2019, £240k), “*Advanced wind turbine prognostics using machine learning*”
- TIC-Wind-03B (Co-I & Researcher, 2017–2018, £145k), “*Commercial Frequency Response from Wind.*”
- TIC-Wind-03, (Co-I & Researcher, 2016, £20k), “*Ancillary Services from Wind: Initial Survey of possible Technical and Economic Opportunities.*”
- EPSRC Doctoral Prize, (Prize Winner & Researcher, 2015–2017, £100k), “*Optimal Operation of Wind Power Plant Informed by Probabilistic Forecasts.*”
- Awards**
- Poster Prize: Supergen Energy Networks Conference, London, 2023*
- 4th place: Big Data and Energy Analytics Laboratory Challenge, 2022*
- Second Place: EEM Wind Power Forecasting Competition 2020*
- Runner-up: Fuellers Future Energy Conference Research Presentation Competition 2019*
- Runner-up: Offshore Renewable Energy Catapult Hackathon 2019*
- Winner of the EEM 2017 Wind Power Forecasting Competition*
- Finalist: Scottish Renewables Young Professionals Green Energy Awards, Academic Category, 2015.*
- Outstanding student paper award, PMAPS Conference, 2014.*
- (Travel) *Glasgow Research Partnership in Engineering (PI, 2017, £4k): “Probabilistic Solar Power Forecasting.”*
- International Institute of Forecasters Travel Award Grant (2016, US\$1k)*
- Glasgow Research Partnership in Engineering, (PI, 2016, £2k), “Production and Use of Probabilistic Wind Power Forecasts.”*

COST Action ES1002 WIRE: Scientific Mission, Visit to DTU/Prof Pierre Pinson (PI, 2013, £2k), "Spatio-temporal Aspects of Probabilistic Wind Power Forecasting."

Research Supervision and Management

I presently lead a group focused on Energy Forecasting, including management ad hoc research staff and supervision of three PhD students. These roles include supporting professional development, performance reviews, financial management and other forms of support.

Carla Gonçalves, University of Porto, 2021: “*Renewable Energy Forecasting: Extreme Quantiles, Data Privacy and Monetization*”

M Groch, Stellenbosch University, 2019: “*Modelling and short-term forecasting of high wind speed events at operational wind farms*”

Internal Examiner: Flynn Gewirtz-O’Reilly, University of Glasgow, 2024: “*Generation and assessment of useful and privacy preserving synthetic datasets*”

Yoana Napier, University of Glasgow, 2022: “*High resolution air quality modelling and prediction*”

Convenor: Haijie Qi, University of Strathclyde, 2020: “*Optimal operation and sizing of a combined heat and power system integrated with demand side response in a smart energy hub*”

Teaching

2022–23 *Course Head & Lecturer, “2X: Probability II”*

2021– *Course Head & Lecturer, “Time Series” (STATS4037 & 5030)*

2021– *Coordinator: MSci in Statistics with Work Placement*

2021– *Projects in Statistics; BSc, MSci & MSc*

2016–2020 “*Wind Waves and Tides in ORE*”, *Centre for Doctoral Training Core Module*

2018 *EES-UETP (summer school): Statistical Learning for Uncertainty Forecasting*

2017– *Data Science for Environmental Modelling and Renewables—MOOC*

2015–2021 *Guest lecturer, tutor, and project supervision, Electronic & Electrical Engineering; BEng, MEng & MSc*

2012–2015 *Educational Outreach: Glasgow Schools, Science Centre and Science Festival*

Knowledge Exchange Activity

Consulting Regular consultancy with UK and European utilities and government on forecast improvement, evaluation and participation in European electricity markets. Recent engagements have included RenewablesUK, Cobblestone Energy, Vattenfall, National Gas Transmission (GB), and the UK Committee on Climate Change.

Partners *National Grid Electricity System Operator*

I am in regular contact with staff at NGENSO, including members of the Forecasting Team and control room staff. I have consulted with them on aspects of forecasting methodology, use of forecasts in operational settings, and statistical analysis of energy data in general. NGENSO have funded my work directly as a consultant and via the Network Innovation Allowance. In 2022 I delivered a training course on probabilistic forecasting to NGENSO staff, and am seconded into the forecasting team on a part time basis from 2023-24.

SSE and Scottish Power, Large Utilities, Europe

I regularly interact with the renewables and trading teams at SSE and SP who have supported my research with in-kind data provision, co-funding research projects, and via network innovation schemes (NIA and SIF). Both organisations have deployed forecasting systems I have developed.

Media*In the news*

Quoted by Bloomberg in [Wind Farms Are Overstating Their Output — And Consumers Are Paying For It](#), 1 February 2024.

Datalab Podcast

Guest on The DataLab podcast in 2021 for episode [Machine Learning in Action: Energy Forecasting with Jethro Browell](#).

Professional Membership**IEEE**

Senior Member, member of the Power and Energy Society and Working Group on Energy Forecasting and Analytics (Vice-chair 2021–22, Chair 2022–present), session organiser and invited panellist at PES General Meetings.

RSS

Fellow of the Royal Statistical Society, 2017–present.

HEA

Fellow of the Higher Education Academy, 2017–present.

IIF

Member of the International Institute of Forecasters and Secretary of the UK Chapter, 2019–present, and regular organiser of sessions at the ISF conference.

WEMC

Member of the World Energy Meteorology Council, 2019–present.

IEA

WP co-lead of International Energy Agency Wind task 36 and active member PVPS task 16

ONS

Office for National Statistics Accredited Researcher number 34064.
